# The MARINEFF project

The MARINEFF project was selected under the European cross-Broder Cooperation Programme INTERREG V/A between France (Channel) England, co-funded by the ERDF. It brings together 9 French and British partners.
The Marineff project's goal is to enhance and protect coastal and transitional water ecosystems in cross-roder Channel regions. The project aim is to realise new biomimetic infrastructures to improve the initial ecological status of water, by at least 15%.
